

G.L.S.B.C. Maintenance Program

Important

To All Active Members:

The response to the Club Maintenance Program last year was very good. This year we hope to continue with all members pitching in and helping to maintain the buildings and grounds.

Items needing attention will once again be posted in the Clubhouse so members can choose what work they would like to perform. We do not know when you have time to contribute so it is your responsibility to do so and to record what work you have done. If you do not record it, we will not know to give you credit and this could result in you running the risk of not being granted a well in the future.

If you know of something that needs attention and it is not on the list feel free to add it and if it is within your capabilities please take care of it. We will not be making phone calls to get you here to participate in maintaining your club. The only time we will call for work parties is when we have a project requiring certain job skills and abilities.

The Club Maintenance Program does not include the requirement of all well holders to be at-launch and haul out work days nor does it include the requirement of well holders to maintain their dock and to keep their dock area orderly and weed free. Working at Club functions is also not included. If everyone does a little, a lot can be accomplished.

GLSBC Board of Directors

Please sign this notice and return it along with your invoice, check and other required paperwork.
